TAKE UP MEXICAN PLAN TO RETAKE TERRITORY

Senators to Hear Judge Valls, Who
Presided at Trial of Several Raiders.

SAN ANTONIO, Tex., January 22.—The Mexican "plan of San Diego," which had as its object the recovery of certain American territory, was to the forefront today, when the Senate subcommittee here investigating Mexican affairs resumed its hearings. Senator A. R. Fall, who had been in El Paso in connection with the proposed transfer of the hearings to that city, was back in the chair. Judge John Valls, in whose court were tried several Mexicans who participated in raids into the United States under "the plan," was to be called as a witness late today. Americans in the direct or indirect pay of Carranza are responsible for reports of improved conditions in Mexico, Henry Forster yesterday told the subcommittee. "The fact is," said Forster, who returned Tuesday from Mexico City where he unsuccessfully tried to have Mexicans stopped from drilling for oil on property he had leased and registered in June, 1919, "conditions are growing steadily worse. Carranza controls the larger towns, but not the country." Two American farmers, who were living in the Rio Grande valley in 1915, testified that raids into the United States were halted only when some 60,000 American troops were brought into the district.

MEXICO REPORTS TAKING OF AMERICANS' SLAYERS

Mexican authorities in the Tampico district have reported the capture of the persons suspected of the murder of P. J. Rooney and Earl Bowles, American citizens, and of two probable accomplices, among them, information furnished the American embassy at Mexico City by the Mexican foreign office in a note dated January 17.

YANKEES SEEKING TOBIN

Huggins Wants St. Louis Fly-chaser in His Garden With Ruth and Lewis.

NEW YORK, January 22.—The visit of Manager Huggins of the Yankees to St. Louis has stirred up the news that the New York manager has made a flattering offer to the Browns for outfielder Johnny Tobin. Huggins' visit to St. Louis with Scout Tom Connerly occasioned no little surprise in the Mound City, because it was believed that on account of the fight in the American League that trading negotiations between the clubs would be impossible. However, while the club owners meet at odds, they do not propose to allow their own feelings to interfere with the plans of their managers. It is getting pretty close to the time when the clubs are to go south, and the managers are overlooking no opportunity in strengthening their clubs. Tobin is a high-class outfielder, and with Ruth and Lewis the Yankees would present a powerful outfielding aggregation. The St. Louis club has always had good luck with players they have obtained from the Yankees, and there is a possibility that the deal may go through. Huggins has also visited Chicago and Detroit, and it is not believed that he found much encouragement in these cities.

Tyler Regains Health When Teeth Are Yanked

CHICAGO, January 22.—The services of George Tyler, star left-handed pitcher of the Chicago Nationals, have been saved through extraction of nearly all his teeth, it became known today with the announcement from William Veeck, Cub president. That Tyler would be one of the vanguard of four to go to Hot Springs, Ark., February 10 or 11. Throughout last season Tyler was on the sick list, pains in his shoulder and back rendering his mound work ineffective. Shortly after the season closed Tyler went to two noted specialists for an examination. They found him almost a perfect physical specimen, but advised that he have nearly all his teeth extracted. Tyler returned to his home at Boston and soon had all his "sick teeth" pulled. Only three were left. A letter yesterday to President Veeck announced that the old pains had disappeared and that there seemed no reason why the pitcher should not be able to take his regular turn on the mound next season. With Tyler, Alexander Vaughn and Hendrix will go to Hot Springs to prepare for the regular training season.

Sharkey Outpoints White.
